MEETS BOARD IN RICHMOND TODAY

**T. A. Coleman Goes There to Ar-
range For Appointment of Coun-
ty Agent For Wayne County.**

ONE NAMED AT GREENSBURG

**Rushville Man Says That Calls For
His Assistance Are Coming Fas-
ter Than he Can Answer.**

After attending a meeting of the Decatur county board of education at Greensburg yesterday when W. E. McCoy of Washington Court House, Ohio, was appointed county agricultural agent, T. A. Coleman of this city, who has this work in charge, spent last evening here and this morning went to Richmond to perform a similar mission today.

Mr. Coleman is scheduled to appear at similar meetings in several counties in central Indiana in the next few days. He says that it will not be long before the limited number provided for in the law will have had many applications for county agents.

After supervising the appointment of an agent at Richmond today Mr. Coleman will go to Newcastle where he will meet with the Soil Improvement Association of Henry county to act in a similar capacity. Shelby, Grant and Madison counties have already complied with the statute by raising the necessary five hundred dollars and making application for the appointment of a county agent and Mr. Coleman will visit in Shelbyville, Marion and Anderson within the next few days and meet with the respected county boards of education.

It was only a few days ago that Mr. Coleman organized a block of ten counties and appointed county agents in the northwest corner of the state. He says that every county in which he has been where application for county agents have been made, the enthusiasm in prospect of the work of the expert has been great.

Mr. Coleman says that it will not be many days before the number of counties limited by the vocational law to have county agents the first year will be completed. The statute says that only one third of the counties may have agents the first year the law is in effect, another third the second year and the remaining counties the third year.

It will be recalled that Mr. Coleman was selected to assist Prof. Christie, who is in charge of the Purdue experiment station, in establishing county agents. It is his duty to visit all of the counties and recommend the agents to be appointed. He says that the counties who were first to apply are getting the best of the experts and that those who delay will have to be satisfied with what remains.

A number of farmers and bankers of Richmond and from other parts of Wayne county met with the Wayne county board of education today when a county agent was to be named. The applicants for the position must be graduates of a college and experienced farmers. Each bank in Richmond donated at least ten dollars toward the five hundred raised by subscription in Wayne county. The first National bank of Cambridge City subscribed \$17.50 toward the fund.

As was done at Greensburg yesterday, Mr. Coleman suggests the organization of a Better Farming association to work with conjunction with the county agent. In this way, he maintains, much better results will be obtained. It is advised that the association have a board of di-

DIES AFTER OPERATION

**Mrs. Elmer Buchanan Succumbs at
Sexton Hospital.**

Mrs. Lizzie Buchanan 40 years old, wife of Elmer Buchanan, died this morning at six o'clock at the Sexton hospital, following an operation last Monday and gradually became worse and death was expected. Besides her husband she is survived by two sons, Roy and Ray Buchanan. The remains were taken to Hebron, Jefferson county this afternoon for burial. Mrs. Buchanan formerly lived there before coming here some years ago.

THIRTY DELEGATES ATTEND MEETING

**Annual Session of Women's Mission-
ary Society of Indiana Presby-
tery in Session at Mays.**

WILL CLOSE THIS EVENING

The annual meeting of the Women's Missionary Society of the Indiana presbytery, United Presbyterian church, was held in the Mays U. P. church today. The meeting will be closed with an address at tonight's session by Mrs. J. P. Hopkins. The principal address at this afternoon's session was made by Mrs. William E. Cook of Beaver Falls, Pa. The business of the society, including the election of officers and the selection of a place for the next meeting, was to be transacted this afternoon.

The meeting opened with a session last night, at which the Rev. J. A. McConnee, a returned missionary from India, spoke. There were thirty visiting delegates in attendance today and they were all unanimous in praising the hospitality of the women of the Mays church, who made great preparations to entertain the guests. A large crowd from the Rushville congregation attended.

TO AWARD PRIZES CHAUTAUQUA WEEK

**Civic Improvement Association Will
Announce Winners in Flower
Growing Contest Then.**

INTENSE INTEREST IN IT

Prizes in the flower contest, which is being conducted by the Civic Improvement and Social Service Association of Rushville, will be announced during chautauqua week. According to present plans, the awards will be made Thursday afternoon of that week, but the plans are only tentative thus far. When the awards are made, the prize winners will be displayed on the stage at the chautauqua.

It will be recalled the association announced the contest a few weeks ago to arouse some enthusiasm in the city beautiful idea, because the planting of flowers is one of the best methods employed to beautify homes. The association procured a large number of flower seeds and announced they would be sold at actual cost, a cent a package. That much interest is being taken in the contest is proved by the fact that three thousand packages of seeds were sold. Substantial cash prizes, amounting in all to twenty-five dollars, will be awarded.

ASSISTANTS ARE TO KEEP WATCH

**Assistants to State Fire Marshal Are
Instructed to Supervise Sale
of Explosives July 4.**

ENFORCING THAT NEW LAW

**Township Trustees Have Jurisdiction
in Their Respective Township
and Fire Chief in City.**

A systematic fight is to be waged against Fourth of July fire losses in Indiana this year, by state fire marshal W. T. Longley and his assistants. These assistants, as has been explained in the Daily Republican already, are the fire chiefs in all cities and towns having fire chiefs; the township trustees in all rural townships, and the town clerk in towns which have no fire fighting organization. The duties of assistants, both in general and in the particular matter of prevention of Independence Day losses are defined and insisted upon. Their Fourth of July labors are of special public interest, inasmuch as the prevention of fires on that day cuts deeper than mere property considerations, and implies increased safety to the performers in the misguided celebrations.

Fire Chief Hughes, who, under the new law is assistant to the state marshal, and every township trustee in the county—for they are assistants also—have some power under the new arrangement, and this they are directed to use. First, it is their duty to see that the laws of their city, or of the state if they live in the country, are strictly obeyed as to the sale of Fourth of July explosives. Sometimes a dealer, through carelessness or misunderstanding of restrictions, gets in a stock of high explosives and sells them to the thoughtless Young American. Nothing of the kind will be allowed here this year, should any such attempt be made.

Further, fire chief Hughes will see that alleys and areas are cleared as well as may be of inflammable waste, and will insist that old fire traps of buildings be shut up throughout the day and the night of the Fourth, in order that boys at their play cannot get inside them and by chance start fires.

The work, embracing city and county, may seem somewhat indefinite to the outsider, but to the deputy marshals, who have received specific instructions, it is plain, and seems likely to throw much greater safety, both to property and to life, around Independence Day in Rushville than it has heretofore known.

LARGE CROWD AT MILROY

**For Laying of Cornerstone For New
School.**

A crowd as large as any that attends the Milroy Fall Festival was there today for the laying of the corner stone of the new school building. The exercises connected with the laying of the cornerstone were under the auspices of the Masonic lodge of Milroy and the address of the afternoon was given by Judge Orbison of Indianapolis. The Brookville band furnished music for the occasion. Tonight the Masons will have degree work, and Grand Master, John W. Hanan of Lagrange, Ind., will be present.

LOCAL PEOPLE ARE INTERESTED

**Many Have Money Invested in Fed-
eral Union Surety Co., For
Which Receiver is Asked.**

STOCKHOLDER FILES SUIT

**This is Company Which Contracted
to Take Over Assets of Auto-
mobile Insurance Company.**

Many Rushville people today were interested when they learned that William W. Huffman of Anderson had filed suit in an Indianapolis court the appointment of a receiver for the Federal Union Surety company, in which considerable local capital is invested.

Furthermore several months ago the Federal Surety company contracted with the defunct Automobile Insurance Company of America, in which considerable local capital was placed, to take over its assets. Some rather sensational charges are made in the complaint for a receiver.

The plaintiff alleges that Robert P. Wofford, former president of the Federal Union Surety Company; John Love, who is now president, and Clarence M. Abbott, the vice president, have conspired to dissipate the resources of the company by paying exorbitant salaries. Judgment against Wofford, Love and Abbott in any sum the court might think correct is asked. Wofford and Love both reside in Texas. Abbott resides near Southport.

Huffman alleges in his complaint that the company was organized in 1901 to do a surety business and was in active business until about a year ago, when it transferred its business to the Southern Surety Company of St. Louis. Nothing remains for the Federal company to do now but settle its affairs, pay its debts and distribute the assets, the complaint says.

Wofford is alleged to have received a salary of \$10,000 but it is averred that he performed no real services for the company. Love is said to be drawing \$10,000 a year and Abbott's salary is alleged to have the same. The three men are alleged to have controlled the majority of the stock and to have controlled the board of directors in that way. They are said to have concealed from the stockholders and directors and true financial condition of the company, among the alleged concealments being a failure to list in the last statement to the auditor of state a judgment with interest against the company in New York amounting to about \$70,000.

The company has deposited with the auditor of state \$245,305.36 and has about \$70,000 cash in Indianapolis which the plaintiff avers he is afraid will be removed from the jurisdiction of the Marion county courts.

C. M. YOCUM TO SPEAK.

The Red Men and Odd Fellows of Falmouth and vicinity will hold their annual memorial services at the cemetery Sunday, June 29. The chief address will be made by the Rev. C. M. Yocum of this city. Music will be furnished by the Falmouth band and a program of vocal selections will be given at the service. All members are requested to meet at Fairview at one o'clock to march to the church. The procession will be led by the band.

Walter Binford, Joseph L. Binford, S. Murray Parker, Marcia B. Choppell, Mary Ellen Newsom, Frances W. Pusey and William F. Pitts have filed a petition in the circuit court for a public drain.

MRS. MARY MANN EXPIRES

**Dies at Home Near Milroy After
Long Illness.**

Mrs. Mary Ann Mann, 87 years old, widow of the late E. B. Mann, died yesterday afternoon at five o'clock at her home northeast of Milroy. Mrs. Mann had been ill for some time and death was due to senility. Mrs. Mann is survived by one daughter, Mrs. John Elston, of Irvington, Ind. The funeral services will be conducted Saturday afternoon in the Milroy M. E. church by the Rev. Clyde Black. Burial will take place in the Milroy cemetery.

RAILROADS HAVE MANY CLAIMS NOW

**Because of Lack of Rain Everything
is Dry and Easily Ignited by
Sparks From Engines.**

LOCAL CLAIM AGENT HERE

Railroads are now compelled to settle many claims with farmers who own land along their right-of-way. This is due to the fact that everything is dry, because of the lack of rain, and is easily set on fire by the sparks from engines. A claim agent for a local company, who was here today, said business in his department had been unusually rushing the last two weeks because of the scarcity of rain.

He told of a very unusual instance in which a company is held liable for damages. One day recently a farmer was driving on a road alongside the railroad's track north of Indianapolis when a spark from the engine ignited a load of hay he was hauling. It was burned up, the wagon was damaged and the horses' tails were singed.

LEAVES MOST OF ESTATE TO CHURCH

**William George Creelman, Eccentric
Man, Remembers Scotch Cov-
enantry Faith in Will.**

ADMITTED TO PROBATE TODAY

William George Creelman, the eccentric old man who died at his home southeast of Glenwood Monday night left the most of his estate to the old Scotch Covenant church near Orange, according to his will which was admitted to probate in the Fayette circuit court in Connersville today.

George C. Leonard, a district relative, who cared for Mr. Creelman in his last illness, was appointed executor and qualified today. The will provides he shall have forty acres of land. Two hundred dollars is given to Lindsay Leonard, brother of George, \$100 each to two cousins in Kansas and California, and \$100 to George Hobbs, who nursed Mr. Creelman. The will provides the valuable timber shall be sold, and that after all debts are paid, the cash and remaining land shall go to the church.

SPEED CRAZE RUNNING WILD

**Rushville Motorists Have No Record
For Law, Which is Liable to
Result in Fatal Accident.**

OFFENSE IS A COMMON ONE

**Speed Maniacs Make Automobiling
Very Perilous For the More
Orderly Drivers of Cars.**

Rushville is in the grip of the speed mania.

This very thing is costing lives in cities all about here and no one knows when a life may pay for the speed craze in Rushville. Unless something is done to check the disregard for the speed and traffic laws, the city and county will be shocked by a fearful accident.

The craze for speeding does not possess all of the powers or drivers of automobiles in Rushville nor possibly the majority of them, but it does rule the hand a large number, too large in fact for pedestrians to be safe. There is not an evening that the traffic ordinance and the city and state speed laws are not openly violated—and defiantly, too.

Most of the offenders are young drivers, who think it smart to get on a smooth thoroughfare, open the throttles of their engines, cut out the mufflers and set sail with an utter disregard for the safety of those whom they pass or meet. And there are a few who are not young, who are just as bad, or worse.

Speeding is practiced on all the paved streets, but it is worse in North Main than any of the other thoroughfares. The violation has become not only an annoyance to the people who live on those streets but a menace to those motorists who drive at a moderate speed and in a decent and orderly way.

Objection to speeding does not arise in the main from persons who

Summer Comfort

**for the
Stay-at-Homes**

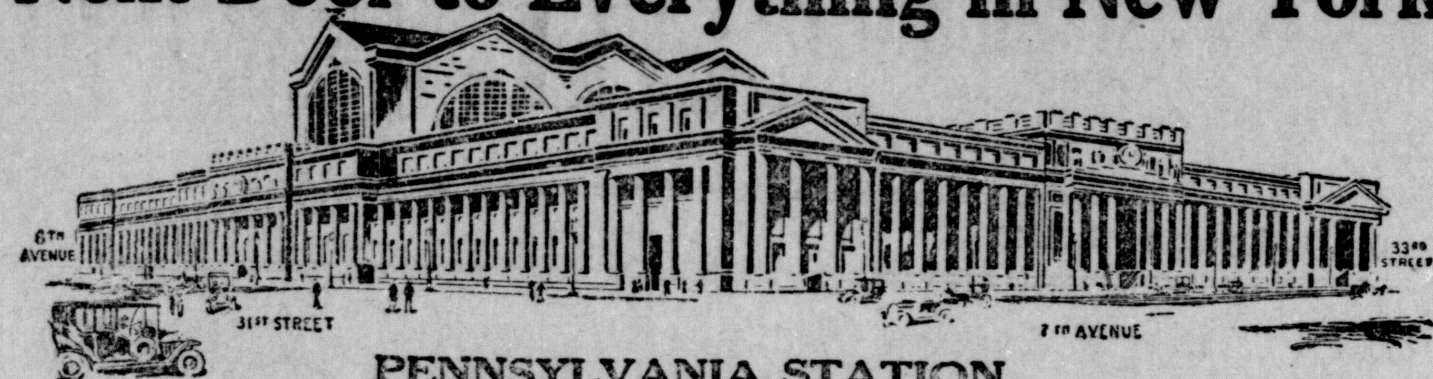

The first warm days bring disappointment to many of us who can not join the general summer exodus from town, but who, for one reason or another, must stay in our houses or apartments during the warm months.

We can't all go to the mountains or seashore, but by a careful and judicious expenditure, every woman can make a summer atmosphere in her own home if she chooses.

Rugs, heavy curtains, and draperies can be put carefully away, and in their place can be substituted a whole new set of things at a surprisingly low cost. There is an infinite number of fibre rugs in the market to fit any size space; there are dainty, fresh, cotton curtain materials in charming designs; and as for cretonnes for furniture coverings, their beauty and variety are bewildering.

Just read carefully through the housefurnishing advertisements in THE DAILY REPUBLICAN and calculate for yourself how little these summer comforts would actually cost.

Russell Kirkpatrick, who has been attending school at Bloomington, has returned home for the summer vacation.

Mr. and Mrs. Lewis Hendrix and daughter, Jennie, spent Sunday in Arlington.

Mr. and Mrs. Robert Bell and daughter, Miss Lillie, attended church at Mays Sunday night.

Mr. and Mrs. Charles Longfellow of Newcastle spent the week-end with relatives here.

Mrs. Elizabeth Gorman has returned home after a visit with her daughter, Mrs. W. W. Webster and family.

Several from here attended the eighth commencement at Rushville Wednesday.

Mrs. Earl Grubbs and son Howard visited Mrs. John Whitton Tuesday afternoon.

Mrs. Vera iser spent Tuesday night and Wednesday with Miss Gladys Green.

Little Flat Rock.

Miss Pearl Coers of Manilla was the guest of Miss Grace Dewester from Wednesday until Saturday.

The members of the official board of the Christian church and their wives attended the banquet at the Main Street Christian church Monday night.

Mrs. Frank C. George and Mrs. Grace Armstrong visited Mrs. Charles Newhouse Tuesday afternoon.

A miscellaneous shower was given at the home of Miss Helen Norris Friday afternoon honoring Miss Bertha Bowen who will be married Thursday evening.

Clifford Stevens and son Gilbert and Mr. and Mrs. Herman Stevens and son Waldo visited at O. J. Myers Sunday.

Mr. and Mrs. El Jinks and little daughter Thelma attended a family dinner Sunday at the former's brother Larene Jinks in Connorsville.

A REAL SUMMER RESORT.

During the present heated term which is a record breaker for June nearly everyone is seeking a cool place as often as possible. There is one large and commodious building right in the center of Rushville which is always pleasant in the summer. That building is the Rush county court house. The hot rays of the sun very seldom enter the big building and there is generally a gentle breeze stirring especially in the circuit court room. The court house would be an ideal place for an afternoon nap if they would only let you do it.

MRS. REGGIE VANDERBILT.

As Alice Neilson She Was a Noted New York Beauty.

© 1911, by American Press Association.

New York, June 19.—Mrs. Reginald Vanderbilt called at Sheriff Harburger's office and asked him to appoint her a deputy sheriff. The sheriff was almost as disappointed as she was when he informed her that inasmuch as women could not vote in this city he could appoint only men as deputies.

MEREDITH NICHOLSON

MINISTER TO LISBON

Indiana Author Gets Portuguese Post.

Washington, June 19.—Meredith Nicholson, well known author, of Indianapolis, has been named by the president to be envoy extraordinary and minister plenipotentiary to Portugal. The speedy confirmation of Mr. Nicholson's appointment is expected. It happens that Senator Shively is a member of the foreign relations committee, to which the nomination was referred. It was Senator Shively who told the president that Mr. Nicholson had not been voting the Democratic ticket "with amazing regularity," but it is understood he will not oppose confirmation in the slightest degree, and a favorable report is expected soon.

There is no rigid requirement as to how soon Mr. Nicholson shall take up his residence at Lisbon. It is expected however, that he will assume charge within the next two months. He succeeds Cyrus E. Woods, a Pennsylvania Republican, whose home is at Greenfield, Pa. Mr. Nicholson's salary will be \$10,000 a year. He will be furnished a secretary, who will be paid by the government a salary of \$2,000 a year. He will not be allowed to select this official, who will be chosen by the state department.

The United States does not own a legation building at Lisbon, and Mr. Nicholson will pay the rental of his residence there. It is understood that the appointment of John E. Lamb as ambassador to Mexico will be made in due course as soon as the administration can get around to it.

Tariff Bill Ready For Caucus.

Washington, June 19.—Democratic senators will meet in caucus tomorrow morning to take up the consideration of the tariff bill.

TERSE TELEGRAMS

Nearly 800 degrees were conferred at Yale university.

The banking firm of Wiesbaden & Bauer suspended at Frankfurt-on-the-Main, Germany, with liabilities of \$4,500,000.

A church at Rowley Regis in Staffordshire, was burned and the fire is believed to have been started by suffragettes.

The Hamburg American giantess Imperator's maiden run from Cherbourg to New York was made in six days and five hours.

Six suffragette leaders sentenced in London to long terms of imprisonment began a "hunger strike" immediately upon reaching jail.

One fireman was killed and six injured, one probably fatally, when fire destroyed the \$225,000 North High school building at Minneapolis.

Six men lost their lives from a Gloucester fishing schooner, which was run down and sunk off Sable Island by the Warren line steamship Sagamore.

William B. Howland, publisher of The Outlook for twenty-three years, has retired from the official family of that weekly and has gone over to The Independent.

George W. Hinman, forty-nine years old, who recently sold the Chicago Inter Ocean to H. H. Kohlsaat, was elected president of Marietta college at Marietta, O.

Fire destroyed the plant of the Vaughn Leather company at Salem, Mass., one of the largest producers of sole leather in New England, with a loss of \$350,000.

The senate has confirmed the nomination of Charles M. Galloway of South Carolina and Herman W. Craven of Washington state, to be civil service commissioners.

William Durtnall, an English engineer, has completed an invention which will possibly revolutionize electric telegraphy and make the long-distance wireless telephone commercially possible.

EUROPE HOLDS GRIMLY ALOOF

Not Much Taken With Our Canal Exposition.

FRANCE ONLY ONE TO RESPOND

Of All the Great Commercial Powers of Europe Our Traditional Friend Alone Has Accepted the Invitation to Join in San Francisco's Big Time, the Others Holding Back on Account of Differences of Various Kinds.

Washington, June 19.—The unwillingness of Germany to participate in the Panama Canal exposition at San Francisco in 1915 officially was recognized by the United States government when Secretary of State Bryan conferred with the German ambassador and through him urged the German government to join in the celebration. The ambassador also called at the White House, where President Wilson made similar representations.

The talk between Mr. Bryan and Count Von Bernstorff has brought to a head an unpleasant situation that has for some time been visible beneath the surface at Washington. The conference at the state department was the first official recognition that has been given to the matter, which it is admitted will undoubtedly have a great effect upon the success of the San Francisco exposition.

Up to date France is the only one of the great commercial powers of Europe which has formally accepted the invitation of the United States to participate in the 1915 exposition.

The Germans, including both the government and the commercial interests, base their opposition to participation in the American exposition upon such a variety of causes as to make altogether a most serious obstacle for the United States to overcome.

In government circles it is contended that Germany wants to know what congress and President Wilson are going to do about the obnoxious administrative provisions in the new tariff bill before the question of taking part in the exposition is decided.

Both Germany and Great Britain are in the position where they will have to be induced by means of very definite concessions on the part of the United States to join in the San Francisco celebration. Russia, on the other hand, probably will refuse to take part in the exposition because of resentment over the abrogation of the treaty of 1832 and the general handling of the Jewish passport question.

Aside from France, Japan and China, most of the nations that have accepted the invitation to join in the exposition are Latin American countries whose interest in the canal is a foregone conclusion.

Resentment against the United States is quite general in Europe in connection with the 1915 exposition arrangements, according to advices received here. Americans are reminded by the Europeans that the government of the United States seldom appropriates any money for participation in expositions in other parts of the world, and yet expects other governments to make liberal expenditures for participation in American expositions.

SPIKED OPPONENT'S GUNS

British Cabinet Ministers Convey Apologies to Parliament.

London, June 19.—For the first time in many years British cabinet ministers were compelled to defend their personal honesty before parliament. The attorney general, Sir Rufus Isaacs, and the chancellor of the exchequer, David Lloyd-George, excused their dealings in American Marconi shares on the floor of the house. The two ministers admitted that they had acted thoughtlessly and mistakenly, although without dishonest intention, and regretted their failure to divulge all the facts when they had made their denials to the house last October of buying English Marconi shares.

By expressing their regret, thereby agreeing with the resolution, the two ministers spiked the guns of their bitterest opponents, who regarded the case as an opportunity to make political capital. This comparatively tame ending to a fierce controversy was apparently the result of a truce between the party leaders to protect the good name of the parliament.

REVEALS FAMILY SKELETON

Death of New Jersey Official Brings to Light Two Wives.

Philadelphia, June 19.—A family skeleton was revealed in the death of Joseph R. Gilkyson, an official of the public service corporation of New Jersey, in the Jefferson hospital, in this city. Two wives mourn the dead man, one Mrs. Gilkyson at 235 South Forty-fifth street, in Philadelphia, and the other in the "Robeson," a fashionable apartment house in Camden. Which is the legal wife will have to be determined, and as both have made claim to the body, their requests were refused and it was turned over to Frederick Gilkyson, a former assistant attorney general of this state.

The deceased was fifty-eight years old and is related to prominent and wealthy residents of Trenton.

LIVES SAVED BY "BUM" REVOLVER

Two Women Menaced By Jealous Husband.

FIREARM FAILED TO WORK

Apparently Insane From Jealousy, Frank Brown of Shelbyville Aimed Point Blank at His Wife and a Neighbor Woman, but in Both Instances the Revolver Hung Fire and the Terrified Women Escaped.

Shelbyville, Ind., June 19.—A double and probably triple tragedy last evening was averted by fate. Frank Brown, thirty years old, failed to kill his wife and Mrs. Ben Cherry, a neighbor, simply because two cartridges in a revolver failed to explode and because his wife's finger caught under the hammer of the gun when he tried to fire a third shot.

It is thought he intended to kill himself had he been successful in ending the life of his wife. Brown is in jail, having been arrested by Assistant Chief of Police Fagel as he was trying to escape from the city. It is believed he is insane from jealousy.

His wife, who is a beautiful woman, has refused to live with him for the last two years because he has been drinking and otherwise dissipating. He has told her a number of times she must live with him or he would kill her.

When he tried to enter the Cherry home Mrs. Cherry barred the doorway. He shoved the revolver against her breast and pulled the trigger. There was no explosion, though the gun was fully loaded. He brushed her aside and then pointed the gun at his wife, who was visiting Mrs. Cherry.

Again there was no explosion. She grabbed the revolver and her finger was caught by the hammer and badly lacerated. She ran to the home of Major Reibold, with Brown pursuing her, and locked the door. Then he fled.

THREE TRAINMEN KILLED

Deadly Head-On Collision Between Passenger and Work Train.

Kalamazoo, Mich., June 19.—Three trainmen are dead and eight passengers injured as a result of a passenger train on the Lake Shore running into a gravel train, just north of here.

The dead are: Engineer Hoeneyuff, Conductor J. Cook, and Engineer Holmburg, all of Elkhart.

It is said the work train crew attempted to make a siding on the time of the passenger train, which is usually late. The trains met head-on just beyond the siding.

Why She Wants a Divorce.

Muncie, Ind., June 19.—Mrs. Jennie Goodwin, in her divorce complaint, asserts that Thomas Goodwin snores in church and that such action constitutes cruel and inhuman treatment.

GIFTS CONCEALED IN FOOD, AN ENGLISH FAD.

Silver Toothpicks in Bread and Cigarette Holders in Jelly.

The latest English idea in freak dinners is to provide the guests gifts with each course. According to the London newspapers, such a banquet was given by an American hostess in Belgrave square to twenty-five guests, who when they broke the rolls of bread found little silver toothpicks inside.

Soup was served in dainty Sevres bowls, and when the liquid was poured into the soup plates the guests were presented with the empty bowls.

The fish provided a startling surprise. Boiled trout was served, and for some time the guests were unable to discover anything unusual about the course. At last somebody found the trinkets concealed in the mouth of the trout. All the fish had rings, brooches and other small articles of jewelry concealed in their mouths.

The lamb cutlets, which were served as an entree, had a charming enameled thimble fitted on the bone over a decorative paper frill. The joint was the only dish showering gifts on the men. A saddle of mutton was served, and all the little molds of red currant jelly passed to the males contained amber cigarette holders.

The jellies served among the sweets had concealed in their midst tiny jeweled scent bottles with various perfumes. The fruits served as dessert were decorated with flowers, which proved to be beautiful enamel brooches.

Secretary of Agriculture Houston has hired a press agent to translate scientific language in reports into English and get it into print in newspapers.

Jamaica girl inserts visiting card in banana; wins husband. J. E. Powell of Toronto was the lucky man. His bride's name used to be Miss Evelyn Bayley.

Representative Steenerson of Minnesota introduced a bill to allow the use of the Panama canal free of tolls to vessels of all countries and thus prevent a monopoly of the coastwise trade.

DETAILS OF BIG DEAL IN IRON COMING OUT

Carnegie-Morgan Letters Are Getting Into Court.

New York, June 19.—Showing that the ironmaster received \$225,000,000 for his interest in the Carnegie company, letters exchanged between Andrew Carnegie and J. P. Morgan & Co., were identified by former Judge James H. Reed, who gave testimony at the federal hearing of the suit to dissolve the United States Steel corporation. They reveal the fact that Carnegie and his friends got dollar for dollar for the bonds of the company that they held and fifteen shares of both preferred and common for every share of stock they held in the Carnegie company. Carnegie, however, figured his total up and insisted on taking the equivalent in 5 per cent bonds in the new corporation.

The letters which were identified by Judge Reed were made public for the first time at the hearing.

In answer to a question by Richard V. Lindabury of counsel to the steel corporation, witness admitted that he was one of the so-called interlocking directors of the steel corporation, saying: "I believe I am in a small way, open to that reproach."

Will Restore Old Tax.

Washington, June 19.—Democratic members of the finance committee have decided to restore the tax on brandy used in fortifying wines, which was reduced to a minimum in the McKinley law of 1890 and has so remained since, and thereby expect to add \$7,000,000 annually to the revenue.

They Seem to Be Proud of It.

London, June 19.—The East London branch of the Women's Social and Political union has sent a statement to Premier Asquith in which they make the boast that property worth \$500,000 has been destroyed in 1913, as a "protest against the exclusion of women from the rights of citizens."

Showed Disrespect to Court.

Logansport, Ind., June 19.—Darwin Myers has been cited to appear and show why he is not in contempt of court. He was restrained from interfering with his wife and, obtaining a copy of the restraining order, mutilated it and nailed it on the door of his wife's home.

KING SALMON FOUND AGAIN IN FAR NORTH.

Fishermen With Hand Lines Make \$10 a Day on Average.

Catching king salmon with hand lines, fishermen in the far north are averaging \$10 a day. The king salmon, which is the largest of its species, ranging from 50 to 100 pounds each, has flesh of a fine grain and a delicate flavor. For these the canneries pay \$1 apiece.

For five years the catch of king salmon has been getting annually smaller and the price higher. There were rumors that the species was becoming extinct. Craig Miller, a fisherman of Ketchikan, Alaska, had a theory that the big fish had changed their feeding grounds because of the Alaskan earthquakes. After working along the shores and among the islands of southeastern Alaska for a year he found a broad plateau off Forester island, on which were millions of king salmon.

The king salmon is fond of herring and Prince of Wales island has bays filled with such fish. The king salmon gathered in force and herded millions of herring, holding them prisoners on the big shoal. Twice a day the salmon go to the shoal to eat herring. Twice each day there is a great commotion in the water for miles around as the salmon rush after their prey.

Miller returned with a boatload of the finest king salmon ever seen at Ketchikan. He told the story, and now there are more than 400 boats floating over this shoal, each containing four men and each man spending two hours morning and night hauling in salmon which weigh an average of eighty pounds each.

TRAINS FOXES TO BE PETS.

German Dealer Has Plan to Avoid High Tax on Dogs.

To beat the city government out of the dog tax, which is \$8 for the first dog and \$12 for the second, a Berlin animal dealer hit upon the plan of domesticating foxes for pets.

The Germans are as fond of dogs as the Turks, and as many of the poorer classes are unable to keep them because of the high tax the dealer advertising tamed young foxes at \$1.50 each points out that they don't come under the city's dog tax law.

Finds Chunk of "Ambergris."

Captain Edward Baker, first man of the life saving crew of Lone Hill station, recently found in the surf near Sayville, N. Y., a quantity of what he believes to be ambergris, a sample of which he sent to New York for examination. If his find is genuine ambergris Baker believes he will be enabled to retire from the government's service.

The United States senate postponed until Jan. 1 the reorganization of the customs service.

BREED TERRAPIN FOR THE MILLION

Bureau of Fisheries Favors Artificial Propagation.

HOW TO RUN TURTLE FARM

Not Every One Can Go Into It Because Proximity to Tide Water Is Necessary For Successful Results—Senate to Be Asked to Grant Breeding Appropriation.

That the famed diamond back terrapin, at once the delight of the epicure's palate and the despair of his pocket, may soon be within reach of the poor man's purse was the subject of recent dispatches from Washington. This possibility was made conditional on the ability of the bureau of fisheries to arouse interest in the breeding and propagation of the delectable turtle, which in recent years has become so nearly extinct. It was said that folks might raise their own terrapin in their back yards, but this statement has been limited. Folks can do this who have back yards on the seashore or other bodies of salt water.

The bureau of fisheries, however, has no doubt from experiments that it has carried on at its terrapin farm at Beaufort, N. C., that the artificial propagation of these aristocratic turtles is thoroughly feasible and can be made profitable. The bureau soon will send out copies of a report which will give full instructions how to raise your own diamond back terrapin.

"Time was," says the bureau of fisheries, "when the Potomac river in its salt water stretches was alive with diamond back terrapin. Now, unless somebody lends a hand by way of artificial propagation, even the folk who are willing to pay even the exorbitant rates now charged for terrapin will have to go hungry."

Selecting a Site.

"In case a natural pond is not available a fairly satisfactory inclosure may be made on almost any low grade of ground to which salt water can be conducted by ditches or through which some salt water creek flows. In such a location, however, the labor of digging the ditches would be great, and there would probably be much difficulty in inducing the females to deposit all their eggs in the sand bed provided for that purpose. Locations on high ground remote from salt water and in places where there is no tidal flow would be absolutely unsuited to terrapin culture. Pens constructed in such places become filled with foul odors mud and filth.

"Whatever type of inclosure is decided upon, at least ten square feet should be allowed for each adult terrapin placed in it. A terrapin can live in less space than this, and further experiments may show that the animals will stand crowding, but up to the present a minimum of ten square feet seems desirable."

The report says that under natural conditions the care of the adult terrapins presents very little difficulty and that in suitable localities the cost of feeding is so small as almost to be negligible, and if supplies are reasonably close at hand and the pen is close at hand a man should be able to care for several thousands of the animals. The laying season begins as soon as the weather becomes warm and lasts for several weeks, and in this connection the report continues:

The Young Terrapins.

"The first young terrapins may be expected toward the middle of August, and from that time on a few of them will be seen from time to time crawling about the bed. They will remain above ground for only a short time, but during that time if there is any avenue of escape they are pretty certain to find it. To one who is familiar with the adult animals the climbing of the young ones is astounding. They can ascend to the top of a rough board fence with ease and by selecting a corner in which to cling can make their way over a concrete wall two or three feet high. The diamond back terrapin was formerly found along the eastern and southern coasts of the United States, but seemed to be more in abundance in the warmer sections."

The report says that good terrapins for breeding purposes can usually be obtained from dealers and that prices vary considerably. Unless the bureau secures an appropriation from congress for the purpose it will not be able to furnish breeding stock. There is a possibility that congress will authorize the distribution of young terrapins in the same manner as fish fry.

EMPRESS BREAKS VASE.

Czar's Mother Spoils Pair Valued by Morgan at \$25,000.

Great Britain's royal household is greatly disturbed by the breaking of one of a pair of blue urn shaped vases given to Queen Alexandra by the late empress of China. The dowager empress of Russia, sister of Queen Alexandra, while visiting Marlborough House in London dropped the vase and broke a handle.

Just after the breaking of one of a similar pair in the royal palace of Peking the rule of the imperial family in China came to an end. The vases are 100 years old, and the late J. Pierpont Morgan offered Queen Alexandra \$25,000 for the pair.

Value of Expert Advice.

That such movements as that under way in Rush county, looking to the appointment of a county agricultural agent, are recognized as the utmost importance to the country is illustrated by the fact that The National City Bank, of New York, the greatest bank in America, devotes almost the whole of its latest bulletin to this question.

It makes it clear that the prosperity of the country depends on the farmer and the prosperity of the farmer depends upon his willingness to adopt scientific methods.

All farmers in Rush county will be interested in the development of the movement as outlined in part in the statement of this great bank:

Congress last year made an appropriation for the inauguration of demonstration work in the North in connection with the farm management investigations which have been under way for several years. The work of the agent in the North is both that of investigator and demonstrator teacher. After mastering local conditions he gets the farmers to test their seed corn, treat seed oats for smut potatoes for scab, spray fruit trees, organize cow testing associations and such other matters of this kind as require immediate attention and are of fundamental importance in good farming operation. The object at the outset is to get as many farmers as possible doing something each day on his own farm with his own hands that will demonstrate that there is a better way of doing things.

The farmers throughout the country understand that the agent is there for their benefit and that his services are at their disposal.

This Farm Management Field Studies and Demonstrations has been undertaken in one hundred and twenty-five counties located in twenty Northern and Western States, and heavy demands are received from all over the country for this co-operative work. Early in the year offers of co-operation of the work far exceeded the number which the Department of Agriculture had funds and men to meet, and there are at the present time nearly two hundred and fifty counties throughout the country which desire to co-operate with the Government in the work, but which the Department cannot undertake at the present time.

The idea is growing in public interest and ills have been introduced in Congress to provide for extension departments in the various agricultural colleges and experiment stations to carry on demonstration work. At the last session of Congress an appropriation of \$75,000 was made to enable the Department of Agriculture to demonstrate the best method of preventing and eradicating hog cholera. Under this provision demonstrations will be conducted in various counties throughout the greatest hog producing sections of the country.

Thus the improvement in farm management in all parts of the coun-

try is going steadily forward and its cumulative effect must be far reaching.

Why July 4 Degenerated.

The tendency for the national holiday to run into mere noise and hoodlumism, was due to a change in the way the grown-ups observed the day.

Years ago there used to be processions, picnics, athletics, and a general jollification. The youngsters were content with two inch fire-crackers and simple pin-wheels.

Then the leading citizens of the community became tired of getting up patriotic festivals. It took too much time, and they wanted to make trips here and there.

Feeling that there ought to be "something doing," the boys undertook to fill the gap. Under their rule there came the dynamite cracker and the Deadly Fourth.

The modern tendency toward pageants, picnics, and athletics is simply a return to the spirit of the original Fourth, more or less modified to suit modern needs. Let all take hold and make it so lively that the Small Boy won't feel it is up to him to do all celebrating the night before!

Perhaps the only real "insidious" lobbyist turned up at Washington is E. F. Milliken of Bayou Meto, Ark. He wrote to Senator Robinson of that state that if the senator votes to put sugar and rice on the free list Milliken will vote to put him on the retired list. There is an army of silent Democratic lobbyists in the country just as "insidious" as Milliken.

At its next meeting the Gridiron Club will have all that it can handle if it confines itself to the Quiz, the like of which was never seen until Mr. Wilson took hold of the White House school.

Seventy-six per cent. of the note issue of the National Railways of Mexico is unsubscribed. This is one of the cases where the principal looks a lot better than the interest.

There is \$500,000,000 at Washington ready for the bankers to borrow, but the grocers need not expect to get any of it on their bills.

Editorialettes

This Colym has held steadfastly to the well known fact that greens are the biggest fake that ever graced a table in this commonwealth. That anything could be substituted and the green fiends who profess to like them would never know the difference, has long been this Colym's contention, but it remained for St. Paul to verify it. Now comes a gentleman from St. Paul who thought he liked greens. His wife had rheumatism and she prepared a batch of peach leaves to effect a cure. Wife left them sitting on the stove one evening about supper time. Husband came in and ate them, thinking they were greens. Now, defender of the wily green, what think you of that?

Our pity goes out to Bloomington. They have a water famine there.

We would also like to extend our sympathy to Newcastle where they plan to take advantage of that new

street oiling law which brought such disastrous results here.

If the college presidents would pay some attention, they might learn a lot from the graduating essays.

The Newcastle Times has figured it out that Billy Sunday is not so high priced as an evangelist after all, since, by dividing the total collection he received at South Bend by the number of people who heard him, it is shown that it cost only three cents a head.

It is complained that the men and boys don't raise their hats when the flag goes by, but there is no trouble when someone gets a three bagger.

If you are willing to work yourself to death, you can probably get enough money for a vacation rest at a summer hotel.

When the camera concerns are asked if they have combined in restraint of trade, they will probably reply in the negative.

Something to Worry About.

Vice-president Marshall told some graduates over east that they should worry about a career, but that they would do better to get a little culture. The only way they can get that is to move to Indiana.

MEETS BOARD IN RICHMOND TODAY

Continued from Page 1

rectors, selecting the members from each township.
Yesterday Mr. Coleman told something of the experiences of Mr. Reed, the agent in Park county, the Greensburg News says. Mr. Reed received a call from a farmer who was not a member of the association. He gave the man some advice as to his orchard troubles, selected, at his request, the best field for alfalfa, and did other work besides examining the foot of a horse which was lame. Mr. Reed believed a nail was the cause of the trouble, but the farmer said he and others had failed to find any. After probing into the foot very thoroughly Mr. Reed discovered a broken and rusty nail and the trouble was relieved. The farmer said, "Well, I see you go deeper into all these things than I do. I'll join the association."

Mr. Coleman explained to the board the duties and privileges of the scientific farmer agent, and a contract was closed with Walter E. McCoy for the coming year. His salary is fixed at \$1,800 and as he is required to keep an automobile, he is to receive \$30 per month for its upkeep. Whatever can be saved out of this amount will be kept for the purchase of a new machine. A committee consisting of Will Woodfill, Ralph Donnell and Will Ehrhardt was appointed to secure an office room for McCoy.

EVENT CLOSING TONIGHT

Annual Commencement at Knights-town Home Today and Yesterday.

The annual commencement exercises of the Indiana Sailors' and Soldiers' Orphans Home at Knightstown began yesterday. Wednesday's program consisted of the annual school exhibits and the school musical. The annual alumni business meeting was held this morning, preceding the graduating exercises, when the diplomas were awarded. There was a baseball game this afternoon between the Home team and the alumni. Tonight a festival, and concert and entertainment will follow the annual alumni reunion.

VARNER'S FINE FINALLY REMITTED

Knightstown Coal and Ice Dealer, However, Will Have to Pay Costs in Case.

ATTEMPT TO GET PARDON

County Clerk Harry G. Thornburgh yesterday afternoon received notice from Governor Ralston to the effect that the fine of Al C. Varner, the Knightstown coal and ice dealer, who was fined \$400 and sentenced to serve six months in jail for assault and battery on Russel Hayes, a young Knightstown man, has been remitted, says the Newcastle Courier.

Varner claimed that he was intoxicated at the time he assaulted Hayes, but the jury evidently thought that he needed to be punished for he was given a very stiff fine.

A short time ago a petition was started to have the man released from jail by having the governor pardon him, but it was found, could not be done and the governor was then asked to remit the fine. This he did, at Varner will have to pay the costs in the case.

Miss Anna Dudgeon is ill at her home in West Third street.

Society News

Miss Margaret Yunker, daughter of Mr. and Mrs. Andy Yunker, and John Coursey of Bradock, Pa., were married by the Rev. M. W. Lyons at the Catholic church this morning at six o'clock. The bride was of blue charmeuse, and the bridesmaid, a cousin of the bride from Indianapolis, wore a dress of tan charmeuse. Charles Yunker of Cincinnati, Ohio, brother of the bride, acted as best man. Mr. and Mrs. Coursey left today for their home in Bradock, Pa. Mr. Coursey was formerly employed here by the Westinghouse Electrical company, when he became acquainted with many people in Rushville.

The marriage of Miss Florence Campbell of Shelbyville, daughter of the late Charles H. Campbell, and Frank B. Lyons of Rushville took place before a small company of friends at the Claypool Hotel last evening, says the Indianapolis Star. The ceremony was performed by the Rev. Earl R. North of Shelbyville. After a short trip through the East Mr. and Mrs. Lyons will go to Denver, Col., where they will make their home.

There were only two attendants, Miss Mariet Buggy, daughter of Mr. and Mrs. Fred Buggy of Toledo, O., niece of the bride, who was the ring-bearer, and Miss Genevieve Barger of Shelbyville, who was the bridesmaid. Following the wedding there was a dinner at the hotel. The guests were Mr. and Mrs. Will Smith, Mr. and Mrs. J. Root, Miss Ruth Campbell, Stanley Campbell, Miss Hazel Amick, Miss Naomi Favorites and Miss Barger, all of Shelbyville, and Mrs. George Priest and Mrs. Charles Lyons of Rushville and Mrs. Fred Buggy and daughter Mariet of Toledo and the Rev. Mr. North.

Mr. Lyons is now connected with an automobile tire company as a traveling salesman. He expects to engage in business in Denver.

Amusements

"The Web" a two-reel Vitagraph feature will be shown at the Princess tonight. It is the story of a spider-like adventuress and how she is outwitted by the man she tries to catch in the web. Rosemary Theby, Anna Stewart and James Morrison are featured.

The Palace will show a two-reel KayBee war drama tonight entitled "With Lee in Virginia." It is said to be a thrilling picture and the scenes are said to be very realistic.

MARRIAGE LICENSE.

A marriage license was issued yesterday afternoon to Blaine Reeve and Bertha Bowen.

Removal Notice

F. E. Wolcott, the Druggist, has moved his Drug Store just across the street in the Tyner Room where he will be glad to greet his old or any new customer. Saturday, June 21 he will give the **FIRST 100 FARMERS WHO BRING THIS AD. INTO THE STORE A FINE SAFETY RAZOR.**

SPEED CRAZE RUNNING WILD

Continued from Page 1

do not have automobiles. No one need assume that, for it is not true. The most vehement protests that have been brought to the Republican office have come from men who own and drive cars, and who do not want the pleasure of automobiling spoiled by a few shallow-brained individuals who are bent on showing off and who, simply because they have been lucky enough to escape arrest, make a practice of using the public streets as speedways.

Automobile accidents nearly always are serious affairs. Rushville has had a few of them. In nearly every case the crash was traceable to speeding. The driver who has his car under control all the time seldom gets into trouble—practically never into serious trouble. And the finest pleasure derived from automobiling comes, not from speeding, but from riding in the comfort and security of a car that is moving at moderate speed and entirely under the control of the man at its wheel.

The time has come, when public safety requires that they be no longer overlooked. No one has the right to complain of the police for not enforcing the speed laws. Until recently there was not sufficient public sentiment for such enforcement to encourage the police to attempt it. But the public sentiment is here now and the police should get busy.

The speed fiends turn on their power, start their Claxon horns to screaming and go scorching along as though they owned the right-of-way and everybody else was bound to clear the track for them. Within the last week there have been not fewer than a dozen narrow escapes from collisions. One of these evenings, one of these speeding cars will fail to miss the car it is passing, and then there will be a spill, which, in all probability will be followed by appalling results.

The greatest danger is at the street intersections. No driver knows at what moment an automobile or a horse and buggy is going to dart out in front of him from a cross street. Unless he has his ear under control, only luck can save him from crashing into the object that has got in his path.

In most cases the folly of speeding is pure thoughtlessness, but this fact does not excuse the practice. Those who indulge in it know well enough they are breaking the law, and, if they have any kind of regard for the rights of other persons, they know they are making of themselves not only nuisances, but positive menaces to the safety of the community.

Log Rolling August 16.

The Central Indiana Log Rolling association will hold its annual meeting at Fairview park in Indianapolis, August 16, instead of June 21, as announced yesterday. The local team of uniformed Foresters from the Modern Woodman lodge will participate.

For the Graduates

WE WILL BE GLAD TO

Frame Your Diplomas

Our line of pretty and up-to-date Mouldings is always complete and our prices are pleasing to you.

Wall Decorations, High Grade Paints, Oil, Varnish, Glass, Brushes, Mouldings, Window Shades, etc.

FINE PICTURE FRAMING A SPECIALTY

WE GIVE *2x* GREEN TRADING STAMPS

The Underwear That Wears

It is "FOREST MILLS," handled by this store exclusively for 25 years. The underwear that has proven its worth year after year for that length of time is the kind that we feel like recommending to our customers. Once you wear it, you will always insist on "FOREST MILLS." You will find it here in all styles of union suits and separate garments for men, women and children.

THIS WEATHER

Compels you to be thinly clad. Let this store clothe you becomingly, stylishly and comfortably. We will show you an elegant assortment of ladies' and misses' dresses, for afternoon or evening wear, of voile, ratine, linen, linene, gingham, etc. The prices are such that you can not afford to make them. A beautiful line of shirtwaists, dainty and neat, has just arrived. You will want to own one if you see them. Of course you will want a wash skirt. For the first time we are showing several models made by the Woolltex people. Their tailoring and materials measure up to the Woolltex standard, which is enough recommendation. Anything you may want in house dresses, kimono, dressing saques, middies, Balkan blouses, etc.

—Mrs. C. H. Ryker of Madison, Ind., is visiting her sister, Mrs. James Meek of this city.

—Ed Muire attended the sessions of the Retail Furniture Dealers association convention in Indianapolis yesterday.

—Mrs. Paul Colvin of Indianapolis came today for a two weeks' visit with her parents, Mr. and Mrs. James Gregg.

—Mrs. Sherman Andrews will leave Saturday morning for Crawfordsville and will be accompanied by her son Orval to Chicago where they will remain for a visit.

—Mr. and Mrs. Charles A. Mauzy, Mr. and Mrs. Hugh Mauzy and Mrs. Mary A. Dixon attended the commencement exercises of Indiana university at Bloomington yesterday, when Louis Mauzy was graduated from the university.

—Clarence Stevens, a member of the graduating class at Adrian college, Adrian, Michigan, arrived here Wednesday and left later for his home near New Salem. He is considering the offer of a position as teacher in a Michigan high school.

—Mrs. Harry Kramer returned yesterday from Oxford, Ohio, where she attended the commencement exercises of the Western College for Women. She came home with Mr. Kramer, son William and Mrs. Josephine Puntene, who drove over in an automobile.

Elmer C. Williams suffered a relapse last night and today was not so well. He is in a serious condition and little hope is maintained for his recovery.

The annual Rush-Fayette county reunion will be held Sunday at Brookside park, Indianapolis. A program has been arranged and a large crowd is expected to attend.

MONUMENTS! MONUMENTS!

Our stock of monuments this season, surpasses anything we have heretofore carried, embracing a neat selection from the modestly plain to the elaborately carved from model designs.

An order for a monument placed now will insure its erection for Decoration Day.

The Products from the numerous quarries in the Barre, Vermont, district vary, not alone in color, but also in quality of stock. Who selects yours?

Montello and Millstone granite are of one uniform quality, the highest grade of monumental granite quarried.

CARTER GLASS.

Virginia Congressman Who Heads Banking and Currency Committee.

CONGRESS PERTURBED OVER CURRENCY BILL

Opposition to Many of Its Features Growing

Washington, June 19.—President Wilson and his cabinet members and the administration leaders in congress, after further conferences on the currency bill, find themselves in substantial agreement on the principles of the measure. It is understood that one of the changes made in the bill at the suggestion of the president was in regard to the composition of the federal board of control. As printed and originally agreed to, the bill provided for the appointment of three members of the board by the president with the consent of the senate, the election of three by the federal reserve banks, and the remaining three were to be ex-officio members, the secretary of the treasury, the secretary of agriculture and the comptroller of the currency.

The change that has been made in the bill is in the direction of giving the president greater power over this federal reserve board, which will control the issuing of the new treasury notes to the federal reserve banks. It is understood that Secretary of State Bryan and others expressed the fear that the plan as originally drawn would give the banks too much power in the federal reserve board. It is believed that the number of representatives to be appointed by the president has been increased and the number to represent the federal reserve bank decreased.

Present indications are that the measure will be introduced on Monday and that on the same day Mr. Wilson will deliver in person his message urging the enactment of the measure into law before the current session comes to an end.

In the meantime there is turmoil in congress over the question and opposition to many features is growing. Already it is apparent that Chairman Glass will have a good deal of difficulty getting a report on the so-called administration bill from the house committee on banking and currency.

ALLEGATIONS ARE JUSTIFIED

This Is What Democratic Senators Think They Have Shown.

Washington, June 19.—Before the senatorial investigators of the lobby more letters and telegrams from the private correspondence of C. C. Hamlin, one time chairman of the executive committee of the United States sugar industry, have been put into the record. Their receipt was hailed with great glee by the Democratic members of the committee, who believe that in these letters alone they will find justification for President Wilson's lobby charge.

Convicted of Taking Bribe.

Mays Landing, N. J., June 19.—The jury in the case of the state against William S. Johnson, member of the Cape May county board of freeholders on trial here, charged with accepting bribe money to influence his vote for a certain "frameup" franchise in that resort, brought in a verdict of guilty with recommendation of mercy.

CONTINUE QUEST IN WASHINGTON

Senate Investigators Leave the West Virginia Field.

OPERATORS HAVE MORE TO SAY

Not Being Ready to Produce the Rest of Their Evidence Just Now, Mine Owners Get a Recess in Senate Inquiry and Later Hearings Will Be Had in the Committee's Rooms in the Capitol at Convenience.

Charleston, W. Va., June 19.—A further flood of testimony as to the peaceful and prosperous conditions that ruled in the coal fields before the late strike paralyzed industry and brought war and bitter enmity in its train, was continued until 4 p. m. yesterday, when Attorney Knight informed the committee the rest of the operators' evidence was not quite ready to produce.

Chairman Swanson said it was imperative for the sub-committee to leave that evening. The rest of the investigation would be conducted in Washington unless the full committee should decide to return to Charleston to finish the work. Accordingly adjournment was taken and the three members of the sub-committee who have been bearing the brunt of the inquiry, Swanson, Kenyon and Martine, left for Washington on the 6:45 train.

Besides Quinn Morton, the most important witness for the operators was W. L. Connell of Scranton, Pa. He was mayor of his home city during the anthracite strike of 1902 and was on President Roosevelt's conciliation commission. Mr. Connell said he was not opposed to unions rightly conducted, but he was persuaded that their policy toward District Union No. 17 of West Virginia was correct. Mr. Connell then related his experiences of the union since his company purchased the Paint Creek collieries two years ago. The concern was insolvent then and handicapped by a sale contract that made the advance demanded by the union impossible.

Aleck Schottma, giant negro miner from Cabin Creek, told the committee: "If a man will work he can get a good living up there, but lots won't work." He earned \$100 to \$150 per month; three times he made \$190 a month. He has a wife and three children and \$600 in bank.

Miner after miner from the non-union district of Cabin Creek gave similar testimony and were closely questioned by the senators. They all said they worked in peril of their lives when no guards were on the creek to protect them from the strikers.

Another Mine Strike.

Charleston, W. Va., June 19.—A general strike in the New River coal field will be called next week, according to an announcement of Thomas Haggerty, member of the International Miners' board. Fifteen thousand men are employed in the field.

HELD ON DOG'S EVIDENCE

Bloodhounds Took Up Trail From Scene of Train Robbery.

Springfield, Ill., June 19.—Although sheriff's deputies, special detectives and the police of the city have scoured the country in a search for the two masked men who early Wednesday morning held up and robbed the Diamond Special passenger train of the Illinois Central of \$200, the bandits remain at liberty.

Bloodhounds took up the scent and followed the trail into the city, a short distance from the business section. They stopped at the home of a miner, who was placed under arrest and taken to jail. He will be held while an investigation is made. The Illinois Central railroad and the American Express company offered \$1,000 reward for the capture of each of the men.

Two Boys Drowned.

Bluffton, Ind., June 19.—Roscoe Neusbaum, aged eleven, son of Frank Neusbaum of Linn Grove, and Noel Gentis, aged ten, son of Henry Gentis of Decatur, were drowned in a deep stone quarry at Linn Grove, east of here, where they had been fishing. The Neusbaum boy was a swimmer, and it is thought he tried to save the Gentis boy, who fell into the quarry.

Prosecutor Gets a Flea in His Ear.

Albany, N. Y., June 19.—Governor Sulzer has written District Attorney Wyson of Nassau county, informing him that he must have an immediate report on the charges that gambling is permitted on the Belmont race track. He adds: "I shall hold you strictly accountable for the rigid enforcement of the laws."

Some Good Shooting.

London, June 19.—The first battery of the Royal artillery, stationed at Aldershot, fired ten rounds of shrapnel in twenty seconds at a twelve-foot target located 3,500 yards distant. All were hits. It is claimed that this is a world's record.

While Corporal Dewever of the French aviation corps was flying at a height of 100 feet near Etampes he was seen to raise his arms and give a desperate call for assistance. He fell like a stone and was killed.

Souls (Soles) Saved Here

Bring in your shoes before your soles are "too far gone" and let us make a new pair out of them. You won't have to wait long. Our machinery will mend them in double quick time. It won't cost you much and you will get double the amount of wear out of them.

MEACHAMS LOST TO METHODISTS

Poor Support and Inability to Solve
Carr's Delivery Gives Game to
M. E. Team.

NOW TIED FOR SECOND PLACE

Todd Steals Home in Fifth Inning—
Flatrock and Christian Play
Saturday.

LEAGUE STANDING.

	W.	L.	Pct.
Flatrock	1	0	1.000
Presbyterians	1	1	.500
Methodists	1	1	.500
Christians	0	1	.000

The Methodist team jumped into a tie for second place in the Sunday school league by defeating the Presbyterian team yesterday afternoon. The score was 10 to 7. The Methodist bunch showed improved form with Carr in the box won an easy victory. The Presbyterian team was very weak with the stick and touched Carr's delivery for only four hits and three of these came in the last inning.

With any kind of support from the catching department it is hard to tell just what the score would have been as Carr struck out nineteen

men. Ten of the men made an effort to reach first base on a missed third strike and a majority were safe. Practically all of the losers runs were direct result of missed third strikes. The Methodists got to Buell in the first inning for four runs. Buell was a little wild and four hits, a base on balls, an error and a sacrifice hit gave the winners a four run lead.

The Presbyterians came back in the second and tied up the score getting four runs. Th runs were the result of an error, a two base hit by Sparks, a missed third strike and two hit batsmen. The game dragged along a tie until the fifth when Todd for the Methodists stole home on Buell. Todd pulled the play with Buell holding the ball.

The Methodist team by winning yesterday are back in the running for the pennant while the Presbyterian team seems to have taken a slump. Saturday afternoon the Christian team will take on Flatrock. Flatrock leads the league and a win by the Christians will tighten the race.

TO IMPROVE CHURCH.

The Loyal Sons, assisted by the Anti-Cant's, of the Big Flat Rock Christian church, will give an ice cream festival Saturday night, June 21. A portion of the proceeds will be used for the improvement of the church. Everybody cordially invited to come and enjoy the evening.

EASTERN STAR NOTICE.

Martha Poe chapter No. 143 O. E. S. is invited to Morristown Friday evening. All those expecting to go please be at the 7:09 car.

DUESSELDORFERS PLAY HERE SUNDAY

Rushville Expects to Defeat Team
That Held Them to Tie Few
Weeks Ago.

LOCALS GOING GOOD NOW

One of the largest crowds of the year is expected to attend the ball game Sunday afternoon when the locals take on the Dueseldorfers of Indianapolis. The Brewing team played the Rushville team to a stand still a few Sundays ago, the game ending in a tie after ten innings. Since this game the Rushville team has under gone an overhauling and the team now has some real players. The outfield is as good as any team, with Pierce, Daus and Bridgeman playing. The locals expect to show the Dueseldorfers up in great shape. Either Terhune or Laxon will pitch for the Brewers while "Chick" Avery will as usual be on the mound for the locals. Avery is going good now and last Sunday let the fast Shelbyville team down with five hits and allowed only one of these after the second inning.
